## Description

For storage of larger quantities of flammable solvents, the heavy-duty Drum Safety Cabinet is available in many styles and sizes. Built to the same high standards as the smaller Classic Safety Cabinets, a reinforced liquid-tight sump contains spills. An array of drum accessories and equipment is available to ensure safety and convenience when storing and handling drums of hazardous materials.

White Drum Cabinets for Flammable Waste are the solution for temporary on-site accumulation and storage of waste liquids. Vertical drum safety cabinets safely store waste awaiting pickup and disposal. Each cabinet includes a handy half-depth shelf for additional storage. Large warning label on outside doors identifies contents "Flammable Waste".

Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions. Unique, concealed self-closing mechanism offers obstruction-free access to contents. Cabinets are FM approved and come with a ten-year warranty.
